Sabina Castelli - Kansas

Socialize

Sabina Castelli, an accomplished Affiliate, defines socializing as a means to reach out to as many people as possible, addressing their needs and discussing the health and economic benefits of the Gano Excel products she represents. She believes that socialization plays a vital role in promoting her business and creating opportunities for personal and professional growth.

Reflecting on a transformative experience, Sabina recalls her interactions in Minnesota, where she encountered kind-hearted individuals who not only opened their homes but also their hearts. She vividly remembers a touching moment when a family invited her and her team for a late-night meal, preparing handmade corn tortillas, black beans, and fried eggs. These heartfelt encounters have left an indelible mark on Sabina, transforming her personal life and instilling a sense of completeness that she attributes to her association with Gano Excel.

To foster a culture of sharing and collaboration within her team, Sabina employs strategies such as maintaining a positive attitude, actively listening to her group's needs, and taking appropriate action based on their input.

In the digital age dominated by remote communication, Sabina believes that sharing knowledge and emphasizing accessibility through calls and video conferences, like Zoom, are essential ingredients for nurturing genuine connections. These efforts bridge the physical distance and facilitate the formation of bonds based on trust and love.

Sabina shares a significant instance where socializing played a pivotal role in empowering a woman who lacked the confidence to make decisions independently. Through personal connection and reassurance, Sabina helped the woman regain her composure, leading her to enroll with an ESP-2, marking a moment of empowerment that moved Sabina to tears.

When asked to provide advice for those starting their Gano Excel business, Sabina emphasizes perseverance and self-improvement. She urges individuals to focus their minds and hearts on their goals, rather than fixating solely on financial gains. By prioritizing love and helping others, Sabina believes in creating extraordinary moments and meaningful connections that can drive success in their business endeavors.

Joe Page - California

Harmonize

Joe Page, a Diamond in Gano Excel USA, believes in the pillar of "Harmonize," which emphasizes the importance of aligning efforts towards a shared vision of a better world. According to Joe, true success is achieved when individuals come together as a family, spreading positivity globally and creating an environment where endless possibilities thrive. This philosophy of Gano Excel resonates with Joe and has influenced both his personal and professional journey.

In terms of defining harmony within the context of his Gano Excel business, Joe references a video titled "La Carrera" or "The Race", which demonstrates the philosophy of Gano Excel and the vision they strive to achieve. The video depicts handicapped children participating in a race, where one child falls and the others choose to help him instead of competing for the win. This act of support and unity reflects Gano Excel's philosophy of wanting everyone to succeed and become a Crown Diamond. Joe emphasizes that there is no competition within the company, and everyone strives for the same goal.

Joe shares an example of how harmonizing efforts had a significant positive impact on his team. He witnessed a close friend using international points to achieve Diamond status, which inspired Joe and his team to work together and resulted in three Diamonds simultaneously—Joe, one of his reps, and Mr. Roy Licon. The teamwork and examples set by others within their group played a crucial role in achieving this milestone.

To foster a culture of unity and positivity within his team, Joe believes in maintaining daily contact with team members. He emphasizes the importance of staying connected, especially during the pandemic, to ensure team members feel valued and supported. Joe extends this approach beyond his immediate team, considering all of Gano Excel as a team and suggesting that everyone should maintain contact with their team members and colleagues throughout the company.

In a world filled with diverse backgrounds and perspectives, Joe highlights his own experience of working with Spanish-speaking individuals despite his English-speaking background. He stresses the importance of adapting to different backgrounds and languages to establish effective communication and create a harmonious environment. Understanding the needs and perspectives of individuals from different backgrounds is crucial for fostering inclusivity and harmony.

Joe recounts a specific instance where harmonizing efforts through attending events made a significant difference in his life and the lives of others. He attended an event in Los Angeles with a Colombian lady who was initially struggling to understand the business. By connecting with a successful lady from Colombia, Joe established a friendship and gained the confidence to visit Colombia multiple times, attending large conventions and feeling like part of a family within the community. This experience, guided by the example of his friend Claudia Voigt, ultimately led to Joe becoming a Diamond.

When asked to provide advice to someone starting their Gano Excel business, Joe mentions two important words: teamwork and events. He encourages individuals to prioritize teamwork, emphasizing the significance of collaboration and supporting one another within the Gano Excel community. Additionally, Joe stresses the importance of attending events, highlighting how they can lead to life-changing experiences and connections that can shape one's journey in the business.

Actualize

Maria Elena Arciga, a Leader from Gano Excel USA, embraces the pillar of "Actualize" as a philosophy that emphasizes turning words into actions. According to Maria, it is about transforming dreams into reality and empowering others to do the same. The ultimate goal is to witness the flourishing of health and wealth, not just in their own lives but in the lives of those they touch.

When asked to define "actualize" in her own terms and what inspired her to embrace this philosophy, Maria expresses her gratitude for the opportunity. She explains that "actualize" means taking continuous action that makes a difference and propels individuals to another level.

Maria shares an example of a transformative action she took that had a significant impact on her personal and professional life. She recounts the decision she made to change her limiting mindset and start believing in her ability to achieve meaningful goals. This mindset shift not only affected her professional endeavors but also had a positive influence on her family. She emphasizes the importance of sticking to a system, educating oneself, and being teachable, always willing to go the extra mile and follow up diligently.

To empower others to actualize their dreams of health and wealth, Maria Elena believes in leading by example and doing what she preaches. By embodying these strategies and changes herself, she can motivate her team to take action and see progress in their own journeys.

Reflecting on the key factors that differentiate individuals who successfully actualize their dreams from those who struggle, Maria Elena highlights the significance of falling in love with one's project and having a purpose. She credits her mentor, Diamond Jesus Ruano, for instilling these values in her and serving as an example. Believing in one's project, having a purpose, and being inspired by mentors play pivotal roles in achieving success.

When asked about a specific instance where she witnessed the actualization of health and wealth in the lives of those around her, Maria shares a heartfelt response. Initially, her focus was not solely on health or finance. However, through the leadership and support of her mentor, she witnessed remarkable health improvements among individuals who incorporated Ganoderma lucidum into their lives. People experienced controlled glucose levels, improved vision, reduced dialysis side effects, and increased daily functionality. These impactful changes solidified her belief in the power of taking action and confirmed that she is in the right company with the right people.

For someone just starting their Gano Excel business, Maria advises them to embrace the blessing that has come into their lives fully. She encourages them not to remain silent but to go out and share the opportunity with others consistently. By blessing others, they too will be blessed in return.

Revitalize

Yvonne Kimmel, a leader in Gano Excel USA, believes in the pillar of "Revitalize" as a philosophy that revolves around nurturing oneself with wholesome ingredients and embracing natural and therapeutic solutions. She firmly believes that by revitalizing the body, mind, and soul, individuals can unlock their true potential and lead a fulfilling life. Yvonne invites others to join her on this transformative journey towards a healthier and happier self.

When asked to define revitalization in the context of promoting health and development and what inspired her to focus on this area in her Gano Excel journey, Yvonne emphasizes the importance of nutrition as a fundamental pillar of good health. She refers to the teachings of Hippocrates, the father of medicine, who stated "let your medicine be your food, and food your medicine." Yvonne considers nutrients provided through food as having therapeutic properties that trigger a revitalization effect on the body. Inspired by the vision and ethics of Gano Excel's founder, Mr. Leow Soon Seng, she recognizes the potential of *Ganoderma lucidum*, a pure extract from a medicinal mushroom, to improve quality of life and well-being. She highlights its nutritional and cell renewal properties, which can prevent cell degeneration and support overall health.

Yvonne shares an example of the transformative impact she has witnessed from natural or therapeutic solutions. She discusses the case of constipation, a common condition that can lead to various health issues. Through daily consumption of *Ganoderma lucidum* from Gano Excel, she experienced a solution to this problem, leading to improvements in her overall health and alleviating related conditions. She also mentions her husband's positive results in managing diabetes and dyslipidemia through *Ganoderma lucidum* consumption.

To educate and empower individuals to embrace wholesome ingredients and natural solutions, Yvonne emphasizes the importance of sharing scientific research and evidence that demonstrate the efficacy of *Ganoderma lucidum*. By providing knowledge and understanding, she aims to help people realize the positive impact these natural products can have on their health and help prevent common diseases. Yvonne believes that knowledge is powerful, but it is even more impactful when applied in daily life.

Yvonne highlights several key components of leading a fulfilling life, including stress management, exercise, a nutritious diet, hydration, exposure to sunlight for vitamin D, minimal exposure to toxins, and sufficient sleep. She encourages individuals to gradually incorporate these components into their routines, making lifestyle changes that promote optimal health and well-being.

Sharing a specific instance where someone she worked with experienced significant revitalization, Yvonne recounts the case of a young woman who suffered from depression and associated health issues. Through the consumption of *Ganoderma lucidum* products, the woman experienced improvements in her symptoms, regained her appetite, and ultimately graduated her class with honors.

When asked for advice to someone starting their Gano Excel business, Yvonne passionately recommends joining this opportunity and becoming part of a company that offers not only health and well-being but also financial freedom. THE 5 THINGS YOU NEED TO KNOW

About The Smart Mushroom, *Ganoderma lucidum*

Ganoderma lucidum is considered an **herbal mushroom**, because it is used in traditional medicines for its beneficial properties to human health.

(It is not poisonous or hallucinogenic.)

Ganoderma lucidum is taken **proactively** to promote balance and efficiency within the body. This means it is best taken as part of a healthy lifestyle and it is not meant to treat specific symptoms or diseases.

Ganoderma lucidum contains **bio-active** compounds that help human cells excel at what they do, from important immune system cells down to even skin and hair cells!

Ganoderma lucidum helps the body become **bio-available** for vitamins and nutrients from other foods that you eat, which on top of its own nutrients makes it a super supplier!

Ganoderma lucidum has a very bitter taste, so it isn't found often in cooking. Instead, extract is used to **enrich** everyday products such as coffee, tea, and cereal.

THE BENEFITS OF GANODERMA LUCIDUM

Ganoderma's nutritious fruiting body and mycellium have shown to have a positive impact on health! Regularly and proactively ingesting the **Smart Mushroom** can help achieve positive balance within the body. This allows for optimum performance and prepares the body to deal with stress.

These positive benefits include:

- Helps support the immune system
- Oxygenates the body
- Increases energy levels
- Detoxifies and cleanses the body
- Helps fight inflammation
- Supports circulation
- Naturally balances blood sugar levels
- Promotes cellular rejuvenation
